

IMPACT
POCKETS

BRAND STANDARDS 1.0

Purpose, structure, and forward momentum.

A practical identity system for Impact Pockets across print, digital, partner communications, and email.

REFERENCE RELEASE, JULY 2026
IMPACT POCKETS, LLC

Expert operators. Investable structures.

Impact Pockets helps experienced operators translate proven expertise into structured private equity funds. The identity should feel credible enough for institutions and energetic enough for builders.

01

Experienced

Lead with specific expertise, demonstrated judgment, and disciplined preparation.

02

Structured

Make complex fund formation understandable through clear systems and ordered information.

03

Impactful

Show forward movement and tangible outcomes without hype or exaggerated claims.

Positioning statement

Impact Pockets is a private equity fund incubator that helps experienced industry operators become prepared fund managers.

Core expression

Your talent. Our strategy. Big impact.

Use as a campaign line, not as a legal promise or a performance claim.

Audience: experienced operators, fund sponsors, sophisticated investors, professional advisors, and strategic distribution partners.

One corporate signature, one editorial badge.

The bull and wordmark lockup is the primary corporate logo. The outlined badge is a secondary device for covers, presentations, and editorial layouts.

Primary corporate logo

Use for stationery, email signatures, legal materials, websites, partner pages, and formal communications.

Presentation badge

Use as a cover stamp or editorial corner mark when the full corporate logo appears elsewhere or context is clear.

Reverse use

Use the all-white reverse asset on Deep Navy or on photography with an equivalent dark overlay.

File selection

- **SVG:** websites, digital documents, signage, and scalable production.
- **PNG:** email, office documents, and systems without SVG support.
- **Monochrome:** one-color production, embossing, and restricted print.

Do not rebuild the bull, retype the wordmark, or combine the two supplied logo systems.

Give the mark room to lead.

Clear space preserves recognition and separates the identity from competing information.

Clear space

Maintain at least **1x** around every side of the primary logo. Here, x equals the cap height of the word IMPACT.

Minimum size

Digital: 180 pixels wide

Print: 1.5 inches wide

The badge minimum is 84 pixels or 0.7 inches wide.

Never alter the supplied artwork

Do not stretch or compress.

Do not rotate or tilt.

Do not add shadows or effects.

Light backgrounds: use the primary full-color logo on white, Mist, or a quiet image area with strong contrast.

Dark backgrounds: use the supplied reverse logo on Deep Navy or a consistently dark image field.

Institutional depth. Entrepreneurial energy.

Navy carries the brand. Orange signals action. Supporting neutrals organize information without competing for attention.

Deep Navy

#242D62

RGB 36, 45, 98

Primary identity

Night Navy

#181D3F

RGB 24, 29, 63

Dark fields

Impact Orange

#FF8838

RGB 255, 136, 56

Accent and action

Operator Ink

#252525

RGB 37, 37, 37

Body copy

Structure Lavender

#AFB6D3

RGB 175, 182, 211

Charts and diagrams

Opportunity Mist

#F0F1F6

RGB 240, 241, 246

Panels and sections

Combination	Use	Guidance
Navy on White	Headings and links	Passes WCAG AA
White on Navy	Reverse text	Passes WCAG AA
Ink on White	Body copy	Passes WCAG AAA
Orange on White	Large display accents only	Do not use for body text
Navy on Orange	Buttons and labels	Use bold text at 16 px or larger

Suggested distribution: 55 percent white or Mist, 30 percent Navy, 10 percent Lavender, and 5 percent Orange. Orange is an accent, not a background default.

Clear enough for detail. Strong enough to lead.

The existing materials use a geometric humanist voice. Avenir Next formalizes that expression without sacrificing long-form readability.

DISPLAY FAMILY

Avenir Next

Use Demi Bold or Bold for headlines. Use Regular for large supporting statements.

Fallback: Avenir, Montserrat, Arial, sans-serif

BODY FAMILY

Avenir keeps complex information calm, direct, and approachable.

Use Book or Regular for body copy, Medium for emphasis, and Demi Bold for labels.

Email fallback: Arial, Helvetica, sans-serif

Display 1	Build lasting impact.	48 / 48
Display 2	Structured for opportunity.	36 / 40
Heading	Experienced operators	24 / 30
Body	Translate expertise into an investable fund.	16 / 24
Label	FUND FORMATION	12 / 16

Sentence case: use for headlines, interface labels, and supporting copy. It reads as confident and human.

All caps: reserve for short labels and navigation. Add tracking and never use it for paragraphs.

Build from a four-unit rhythm.

Use consistent spacing to turn complex information into a clear sequence. Favor strong alignment, generous margins, and a visible hierarchy.

One message per section.

Use the grid to create pace, not density.

Page construction

- Print margins: 0.625 inches minimum.
- Digital gutters: 24 pixels minimum, 32 preferred.
- Use 6 or 12 columns for responsive layouts.
- Keep long copy between 50 and 75 characters per line.
- Align headlines, rules, body copy, and media to a shared edge.

Compact

8 to 16 units for related controls, labels, and inline details.

Standard

24 to 32 units between cards, sections, and supporting ideas.

Editorial

48 to 64 units around major transitions and key statements.

Show conviction with context.

Images should communicate capable people, tangible industries, and the institutions where capital and operations meet.

Photography

- Favor real operators, working environments, infrastructure, and financial districts.
- Use strong directional composition and natural, credible moments.
- Apply a Navy overlay when white text sits on photography.

Modular pattern

Use the square grid as a cropped edge device, transition, or signal of connected opportunity.

Icons

Use simple filled or two-pixel line icons. Keep a consistent optical weight and use Navy or Lavender.

Charts

Use Navy for the primary series, Lavender for context, and Orange for one point of emphasis.

Illustration

Prefer geometric systems diagrams over decorative scenes. Label every connection clearly.

Avoid: generic handshake stock images, piles of cash, luxury symbolism, exaggerated growth arrows, or imagery that implies guaranteed returns.

Measured confidence, specific language.

Speak like an experienced guide. Explain the structure, name the next step, and avoid claims the evidence cannot support.

Direct

Use short sentences, active verbs, and clear ownership.

Credible

Use specific scope and evidence. Distinguish aspiration from verified results.

Constructive

Turn complexity into ordered choices and practical next steps.

Use

We help experienced operators prepare a fund structure, assemble qualified advisors, and build a disciplined fundraising process.

Avoid

We guarantee market-beating returns through unmatched access to elite investors.

Writing mechanics

- Use sentence case for titles and navigation.
- Spell out unfamiliar acronyms on first use.
- Use numerals for data and words for general quantities.
- Use commas or parentheses instead of em dashes.
- Keep disclaimers readable and near the relevant claim.

Accessible by default

- Meet WCAG AA contrast for text and controls.
- Provide meaningful alt text for informative images.
- Never use color as the only status indicator.
- Use logical heading order and descriptive link text.
- Keep legal copy at 10 points in print and 14 pixels on screen.

Formal, useful, and restrained.

The letterhead protects a generous writing area while preserving a clear corporate signature and contact block.

Recipient Name
Organization
Street Address
City, State ZIP

Dear Recipient,

This template demonstrates the approved writing area, hierarchy, spacing, and footer treatment for Impact Pockets correspondence.

Use concise paragraphs and preserve the margins shown here. Formal letters should include a subject line when it helps recipients understand the purpose quickly.

Sincerely,

Name
Title

Impact Pockets, LLC | impactpockets.com | Confidential when marked

Letter page

- US Letter, 8.5 by 11 inches.
- Logo, 2.1 inches wide.
- Top contact block aligned right.
- Orange rule separates identity from content.
- Body inset, 0.75 inches left and right.
- Footer remains outside the writing area.

Content standards

- Use Avenir or Arial at 10.5 to 11 points.
- Keep paragraphs left aligned.
- Use single line spacing with 8 points after paragraphs.
- Do not place background patterns behind letter copy.
- Add confidentiality labels only when required.

The working HTML, SVG, and PDF templates are included in [templates/letterhead/](#).

Professional identity without inbox noise.

The approved signature uses a compact table layout, one color accent, email-safe fonts, and no banners or promotional quotes.

impactpockets.com

Your talent. Our strategy. Big impact.

Required fields

- Full name
- Role or title
- Impact Pockets company name
- Primary Impact Pockets email address
- Verified public logo URL

Optional fields

- Direct phone number
- Mobile phone number
- Approved professional designation

Omit the entire line when a value is absent. Never leave blank labels or separators.

Deployment rule: publish the logo to an approved unauthenticated HTTPS asset URL, confirm an image MIME type, and test Gmail, Outlook, Apple Mail, and mobile clients before broad activation.

Protect the source. Version the system.

The original marketing and logo files remain immutable references. Updates begin in this maintained kit and receive a new release identifier after approval.

01

Start with the source

Confirm the source path and checksum before deriving a new asset.

02

Change the maintained master

Update tokens, SVGs, HTML, and templates in the brand kit.

03

Generate derivatives

Create PDFs and previews from maintained masters, not from ad hoc copies.

04

Inspect and approve

Render every PDF page, test email HTML, and record checksums.

Approval status

This release codifies the strongest recurring patterns in the available Impact Pockets materials. It preserves the existing bull logo as the corporate mark and treats the presentation badge as secondary. Brand-owner approval is required before this codification replaces prior informal practice.

Questions and approvals should identify the asset, release number, intended channel, owner, and effective date.
